Table art. Lovely and amusing pair of dancing helmeted cherubs, they are in bronze with golden patina, mounted on a black marble base from the XIXth century.

This is the centerpiece holding bouquets of flowers.

There was possibly a glassware in the rings, but given the slope it is not certain.

These objects are in good general condition and clean, note that one of the two has undergone a small repair aimed at the base of a foot, it is barely visible and very solid see photos.
