Description

We present this oil on panel (a priori we have not dismantled it) worked with a knife and produced by Father CALES, whose real name is Jean Pierre CALESTROUPAT, born August 31, 1870 and died October 15, 1961 in TENCIN (38570), village of Isère where he was appointed, he never left this village. A very great sensitivity of nature in this man of God, who knew how to express it through his painting. This work dates from 1927, it is in its original condition and its frame. (E)
