Description

Oil on oak panel

XVIIth century

Genre scene

Very good condition

Represents a painter in his studio and probably his model and sponsor who all seem doubtful in front of the painting

The interpretation of the scene is left free, perhaps it is the portrait of one of the protagonist.

This type of genre scene uses the standards of classical painting; staging, small dog in the foreground, construction and structuring of the conventional staging ...

However, it is a modest painting and the theme here lends itself to smile because of its irony

Height: 32 cm

Width: 36 , 8 cm
