Beautiful vase (or planter) in fine earthenware from Lunéville by Keller and Guerin. Gold decor called "rocaïlles" adorned with flowers. Piece of really good quality with this enamelled and molded decoration of seed beads enhanced with gold. Flowers painted in gold in the center of this curved frieze. Note the beautiful petrol blue, the luster and condition of the gilding and the pretty ovoid shape. Very good condition (no hair), 26 cm in length and 14.8 cm in height. Beautiful signature in gold "KG Lunéville" with even the initials of the decorator next to it... Very beautiful piece from 1900, fine quality.
