

## Nineteenth Dragon Reception Table Bell

150 EUR

Period : 19th century

Condition : descriptif et photos contractuels

Material : Bronze

Length : 11.5 cm

Width : 7.5 cm

### Description

Dragon-shaped bronze reception bell. Operation very similar to a clockwork mechanism with key winder. The sound is produced by pressing the tail of the animal, it should also be done by pressing the front spike but does not work here. The sound is produced very clearly. Sold as found, with one screw missing which has been replaced with a green wire, please see detailed photos. . Firm price. Payment by check or bank transfer. Shipping costs 12 euros Colissimo recommended or Mondial Relay for France, other countries contact me.
