Lovely pair of Bohemian crystal cornet vases with a double layer of pink, finely cut and wheel-engraved with a hunting scene. They are adorned with a rich rotating decor engraved, one with a stag, the other with a doe facing each other, each in an undergrowth. It is therefore a "real" pair of vases since the decorations "look at each other". They rest on a carved pedestal and open onto a wide collar of the most beautiful effect. Bohemian work from the 19th century, deeply and delicately engraved showing multiple and fine details. In an incredible pink color, as in the photo, which contrasts beautifully with the engraved decoration! Dimensions: Height: 25.3 cm Diameter at the neck: 10.3 cm Very good condition. The bottom is perfectly polished. Same pink color and origin as the deer vase on sale in
