Painted Sheet Egg Boiler

550 EUR

Period : 18th century

Condition : Usures état d origine

Material : Painted metal

Length : 25

Height : 23

Depth : 12

Description

Egg cooker in painted sheet metal from the end of the 16th century with its original removable interior (egg basket) in which the eggs were placed before steaming them. Decorative elements in gilded lead such as lion paw sign collars, the body of the object still has its old original decor, admittedly a little worn but still present
