Description

Very beautiful pastel representing three young women They are at the edge of a lake, one is bathing, the other is about to join her as for the third she is lying down and admires her two companions. It is very well made and curiously unsigned! This pastel and in its original dimensions, so the absence of signature is a mystery? This pastel was executed by a quality artist, it is absolutely obvious but I leave it to the future owner to identify it. Special maintenance has been given to this painting, the original glass has been crimped to the frame using kraft paper by a professional. Very neat work. But it would eventually be necessary to disassemble it to clean it, It is presented in an oak frame. Dimensions 38.5 cm x 73.5 cm frame 54 x 90 cm Shipping costs offered for metropolitan France via
