Description

Elegant pair of 6-light candelabra in gilded bronze, dating from the end of the 19th century. Overhung by a central candlestick, five sconces with pleasant leafy windings support candlesticks with prettily crafted bobèches. The circular barrel, chiseled in the same spirit at the top, is made up of grooves. Each of these lights rests on three scrolled feet, fixed on a cylindrical base lined with scallop shells. The rich ornamentation of these candelabras will undoubtedly enhance your decoration, and will add a sumptuous touch to the table on which you choose to place them.
