Nineteenth Chimney Shovel And Tongs

1 400 EUR

Period : 19th century

Condition : Très bon état

Material : Wrought iron

Height : 95 cm

Description

Shovel and fire tongs from the 19th century of high quality and rare size: 95 cm in height. The carving of the brass parts is of great finesse; they are original and have not been added later as is often the case. The cleaning was light, in order to respect the patina due to use.
