

Wooden Sculpture Allegorical Figures By Joseph Goy

850 EUR

Period : 20th century

Condition : Très bel état

Width : 12

Height : 29

Description

Beautiful art deco sculpture in the round representing a woman feeding little boys looking like putti. This is an allegory, probably that of charity, even if the iconography is somewhat surprising. The artist depicts a child who does not hesitate to step on another to retrieve the food.
