Description

Small Planter made of thick glass, rounded on the lengths, straight on the widths. The bottom is carved with a fifteen-pointed star, and the whole is set in a brass structure. The latter is finely cut, forming medallions surmounted by ribbons, trumpet flowers from which escape scrolls and foliage, or even vegetable garlands... This decorative object rests on four small, equally ornate feet. This planter, which can perfectly serve as a container for various uses, will be appreciated for its refinement and for the delicacy of its carvings.
