Description

It is quite rare on the market this artist there. This lithography is visible in the museum of Rabastens and then I found nothing else? Apparently, the subject is called "the woman with the poppies" it is accompanied by a handwritten poem by Baudlaire (the one in the museum). She is known for the "Job" commercial. The stick is original, the glass is missing, the back cardboard is also original. Foxing. The lithograph is signed in the margin and dated (May 5, 1909)
