

## Large Workshop Plaster, Gallic Warrior

2 200 EUR

Period : 19th century

Condition : Bon état

Material : Plaster

Length : 70cm

Height : 122cm

### Description

Spectacular original sculpture in carved plaster representing a Gallic warrior, probably Vercingetorix. Probably a study for a commemorative monument, this plaster does not bear a signature. This sculpture has remarkable details, including ornaments and jewelry worn by the character. A few elements are missing: his sword in the harness, his spear which he must have held in his raised hand, the handle of a dagger in his belt (see photos).
