traditional styles and modernism. I have a few other photos but also many tracings of interior architecture projects, in graphite, of gouache drawings by the same artist who has participated in numerous artistic exhibitions or Salons such as the Salon des Arts Ménagers in Paris, the Colonial Exhibition of 1931 or the Social Progress Exhibition in Lille and Roubaix in 1939. Dimensions: 23 cm x 29 cm Good condition. Very slight traces of age. A scratch on the back of one of the photos created a slight relief on the front side. Many other objects to discover in my stand at the antique fairs in which I participate. Follow my gallery to be informed of news and know the dates of the next Salons ... I remain at your disposal.
