

Important 18th Century Statue Of Young Woman

4 200 EUR

Period : 18th century

Condition : En l'état

Height : 1.65 cm

Description

Beautiful 18th century statue representing a young woman. We can think that she is dancing, we perceive a movement in the dress and in the attitude. We notice the details of the hairstyle and the dress. It is represented on its original plinth decorated with grooves in the Louis XVI style. There are accidents and restorations that are old. It is a model that remains rare by its subject, its size and the quality of its execution.
