Description

Complete entrance including pillars, gate and valet, cut and forged at the beginning of the 19th century in perfect condition, from Saint Didier in Mont d'Or (Rhône). Its monolithic stone pillars from St cyr au Mont d'Or, with a total height of 240 cm and a section of 27 cm x 40 cm, are crowned with a diamond point, their base with a section of 35 x 50 cm is originally buried by 60 cm. Its gate, 292 cm wide and 175 cm high, has frames with a section of 3 x 3 cm, its bars like its uprights are forged with spearheads at their tops. The lower part is provided with bars of two different alternating diameters. You can visit our website: www.claudeaugustin.com
