Chaumière. She has published many illustrated books for young people (let us mention "La mission du biquet" by Albin Michel in 1948) and produced beautiful images in the form of postcards or posters for the publishers Gedalge and Bourrelier or Fernand Nathan.An exhibition devoted to Maggie Salcedo, prolific illustrator of the arts-deco years, took place at the Forney library under the impetus of the association Mémoires d'images in the year 2000.This event made it possible to rediscover her work at many admirers.A nice catalog was published on this occasion.
