

Africa Early 20th Century : "tutsi Archer Bracelet"

260 EUR

Period : 20th century

Condition : En l'état

Description

Africa early 20th century: "Tutsi archer's bracelet", 18 cm in external diameter, height 9 cm, approximately 7.5 cm in internal diameter, wood and copper. I really like ethnic objects and buy them quite often, but my notorious incompetence in this area makes me often deliver them to you without references. However, the other day, a collector of African bracelets went to the shop and identified him to me, unfortunately, I stupidly forgot to take his contact details to thank him, too bad! This one, whose shape takes that of the so-called African "slave" bracelets, is made of wood decorated with copper plates. Cut in a relatively light wood, its old patina is chipped in places. Do not hesitate to ask us for photos or additional information by email or telephone. Other photos and many other objects in our shops
