### Description

Outstanding and rare wedding german walnut armoire(1639) from Frankfurt decorated in the auricular design from Friedrich Unsteusch of Frankfurt. The piece is made of shellacqued walnut with carved auricular masks. The doors panels are ornated with gilded copper sheet metal decorated with grotesque faces (dolphins, laurel crowns , birds, and urns in ink and van dyke). The top bears the date of 1639 and two coat of arms from the families. The metal work is engraved and tined. (Perfect conditions and very rare) Can be dismantle in four parts.
