### Description

Exceptional painting on thick and raw copper plate on the back. Probably from South America given the work and the pictorial technique! Magnificent colors with its cartouche medallion marked: nuestra senora Carmen. Very beautiful expression of the face rendered by the painter! Probably from a great hand given the mastery and finesse of the oil. Format of 15 cm in height by 14 cm in width. In very good shape ! With its original patina! Provenance collection of paintings from the school of Cuzco deprived of a Bordeaux castle! Not to be missed!! Museum quality! Painting from the beginning of the 18th century may be earlier. Visually stunning!
