### Description

Pierre EYCHART 1943-2013

Son of the painter and historian Paul Eychart, who introduced him to drawing and painting, he studied at the Beaux Arts in Clermont-Ferrand then in Paris.

Very prolific artists in all mediums, he exhibits in France and abroad and is crowned with numerous prizes.

In a world turned towards contemporary art, dematerialized, conceptual, offers us a tender and touching art, a radiant memory of the past, a madeleine of Proust from the time when Painting and Paris were the opposite of the world.
