### Description

6 skeins of 50 meters each of hemp twine from an old olive press in the Gard. From the end of the 19th century, beginning of the 20th century. Thanks to its rustic aspect full of charm, its indefinable ocher color, you will make with this beautiful material "escourtin" as we say in Provence, placemat or table runner, trivet, carpet, bag, shade... You can also give new life to a faded framing rod or sheathe your old glass or pottery jars (see photos)... and many other things according to your needs or according to your desires. You will enjoy working with this beautiful natural material that adapts to all your needs. Let your creativity run wild! Possibility of purchase by 2. If necessary, possibility of restocking. Many other objects to discover in my stand at the antique fairs in which I participate.
