Description

19th century chest of drawers in solid walnut. This model is atypical and does not respect any specific style, indeed the rounded carved decorations and the feet in the shape of a spinning top are trends that were found rather in the 18th century. This chest of drawers is beautifully made, the drawer interiors and the bottoms are in oak. The interiors are cleaned and glazed so that you can store your belongings without the risk of odors or stains. Free delivery in metropolitan France H 103 cm W 119 cm D 53 cm
